

Youth On Stage 2011

Event Description

This is the fourth edition of our international festival YOS.

Our aim is to connect youth in their mutual passion, theatre, and to meet with the local culture. In a short amount of time the participants get to play in front of an international audience. We offer all sorts of multidisciplinary workshops, meetings, a short city trip and a team of critics. Our goal is to create a short show together with the output of each workshop. Accommodation will be provided by host families.
